

Travel Made Easy

We have simplified the requirements for travel to our beautiful destinations.

These apply to all travellers who have been fully vaccinated.

KENYA

The regulations for arriving into Kenya:

- Require a negative PCR certificate – up to 96 hours prior to arrival
- E-visa required for entry into Kenya: <https://evisa.go.ke/evisa.html>
- All travellers arriving into Kenya must complete a COVID-19 Travellers Health Surveillance Form before their arrival, even if only transiting. The online registration form can be found on the “Jitenge” platform, accessible via the following https://ears.health.go.ke/airline_registration or the “Jitenge” App (available on the Google Play Store). After submitting the form, travellers will receive a QR code which must be presented to port health officials for them to be allowed to proceed to arrival immigration. Arrivals will then be expected to self-monitor and report daily to the same platform for their first 14 days in Kenya.
- Mask wearing in public is mandatory
- We strongly recommend all travellers have Covid-19 health insurance.

TANZANIA

The regulations for arriving into Tanzania (Mainland & Zanzibar):

- Require a negative PCR certificate – up to 72 hours prior to arrival
- All travellers (including children) are required to complete a Travellers Surveillance Form, to be submitted within 24 hrs before arrival. Upon submission you will receive a Unique Health Code which will be requested during primary screening <https://afyamsafiri.moh.go.tz>
- Required to take a Rapid Antigen test on arrival (approx. cost \$25 per person)
- If passengers test positive, must isolate for 14 days or until they test negative

SOUTH AFRICA

The regulations for arriving into South Africa:

- Require a negative PCR certificate – up to 72 hours prior to arrival
- All travellers to complete Traveller Health Questionnaire prior to arrival or upon arrival at the Ports of Entry: [ENTRY SCREENING THQ.pdf \(airports.co.za\)](#)

MAURITIUS

The regulations for arriving into Mauritius:

- Mauritius has removed restrictions for fully vaccinated tourists.
- Require a negative PCR certificate – up to 72 hours prior to arrival
- All travellers must complete:
 - Health Declaration Form: [Public-Health-Covid-19-Passenger-Self-Declaration-form-003.pdf \(mauritiusnow.com\)](#)
 - Passenger Locator Form: [KM 454e-20200218131303 \(mauritiusnow.com\)](#)
 - You will need to hand these completed forms to immigration and health officials on arrival at Mauritius airport.
- All travellers must have Covid-19 health insurance.

SRI LANKA

Requirement for travelling to Sri Lanka for fully vaccinated clients:

- Fully vaccinated clients do not require PCR certificate for arrival into Sri Lanka and are allowed to travel freely from arrival.
- For visa to Sri Lanka, please log in to www.eta.gov.lk, please don't forget to bring the reference number of the Visa, if you get it through the ETA link
- The Sri Lankan authorities strongly advise all clients to have insurance policy covering Covid-19, if not they can purchase a local cover which is offered by the Sri Lankan Tourism at USD 12 (covering up to USD 50.000/-), valid for a period of one month. This can be done through www.visitsrilanka.gov.lk

BACK INTO UK

Returning regulations for arrival into UK:

- Fill out UK passenger locator form, max 48 hours prior to departure from country, found on gov.uk
- Day 2 – Book and pay for Covid-19 test (in review to change to lateral flow test)
